

REQUEST FOR PROPOSAL

RECYCLING AND WASTE MANAGEMENT

Addendum #2

Issued 8/24/22

This Addendum #2 shall include RFI (request for information) questions and answers as it relates to the published RFP.

Define New or Like New Condition

- The current compactors and tippers belong to our current contactor and not ASM. The convention center would require new or like new installation from the waste management company to replace the outgoing equipment.

What are the tonnages you are getting out of the units now? Average tons per haul?

- On average the convention center pulls roughly 6 tons per haul

What type of PM schedule has been adhered to with the existing equipment?

- Pre-pandemic equipment was to be PM every 6 months.
